

# APPLICATION FOR AFFILIATE MEMBERSHIP OF CANCER PREVENTION EUROPE

The international and multidisciplinary Cancer Prevention Europe (CPE) consortium was created in 2018 to develop world-class prevention research to be translated into effective cancer prevention guidelines and policies at the national and international level. CPE is a consortium of leading European research institutions committed to prioritizing cancer prevention through cooperation between countries and programmes.

The mission of CPE is to reduce morbidity and mortality from cancer in European populations through prevention and earlier detection of the disease. This will be accomplished through (1) research into optimizing the implementation of known preventive strategies, (2) the dissemination of established best practices in prevention, in order to see innovative research translated into effective cancer prevention guidelines and policies nationally and internationally, and (3) research into the identification of novel targets for prevention.

The organizational structure of the CPE consortium comprises the following types of members: Core Members, Full Members, and Affiliate Members. Eligible applicants for **Affiliate Membership** are:

- organizations, networks, and consortia consisting of member institutions active in cancer prevention research, implementation, or advocacy;
- individuals with a documented role in cancer prevention research, implementation, or advocacy;
- research institutions that specialize in cancer research but not in cancer prevention research.

No financial contribution will be requested. **Affiliate Members** will be included in email distribution lists to receive news from CPE.

Please ensure that all information entered below is up to date, and that you answer all questions accurately.

*Please complete this form electronically and return it to: [cpe@iarc.fr](mailto:cpe@iarc.fr)*

## 1 Contact Details

Organization/Individual		
Address		
Number	Street	
City	Postal code	Country
