

Cancer Prevention Europe - Early Career Network (CPE-ECN)

International Agency
for Research on Cancer

Concept

Vision:

To bring together a network of early career scientists, health promoters, cancer prevention advocates. In cooperation with the Cancer Prevention Europe Steering Group the CPE-ECN will facilitate collaborations across the CPE consortium (Core, Full and Affiliate).

Mission:

- To foster collaboration across the CPE consortium, including all levels of memberships (Core, Full and Affiliate);
- To assist in achieving the CPE mission, led by the SG;
- To provide a network platform for early career professionals working in cancer prevention across all interested sectors.

Organisation

The CPE-ECN will be coordinated by a board that will lead an annual agenda and activities with the help of different members.

Organisation:

- Different working groups will be formed depending on projects and initiatives ranging from: Research - Advocacy – Career Development - Social Media/Communication – etc.
- Criteria to join the board:
 - The member must hold a junior position or be an early career scientist, health promoter or advocate
 - The member must be part of one of the Core Member institutions of CPE

Benefits and activities

Activities carried out by CPE-ECN include the following:

- To strengthen collaboration across the CPE consortium, including all levels of membership (Core, Full and Affiliate)
- To set-up internal and external webinars, and workshops covering hard and soft skills to aim career development
- To set-up a dissemination strategy to increase CPE visibility
- To contribute to ongoing projects held within the CPE consortium
- To propose new projects to the SG

Benefits:

- Collaborate across the best cancer prevention research institutes in Europe
- Network amongst peer with same interest and ambition
- Create and lead projects empowered by the CPE secretariat
